

ProfitMaxx Coaching Overview/Agreement

ProfitMaxx is a relatively simple program to use; however, it is not uncommon for ProfitMaxx users to request “a little help” along the way. As you know, contractors are welcome to contact Grandy & Associates during the initial setup and implementation of ProfitMaxx – at no charge. However, some companies feel more comfortable with some additional help during setup, implementation and especially when it comes to reviewing monthly reports.

The use of a highly trained ProfitMaxx coach can smooth the process of implementation and can help ProfitMaxx users maximize the use of the information ProfitMaxx produces. ProfitMaxx has an “export” feature that allows the user to export all data (via e-mail) to a highly trained ProfitMaxx coach for review. The “coach” then does three things:

- **Preparation** – The coach will spend several hours reviewing the contractors data in preparation for the coaching session
- **Coaching Session** - The coaching session normally lasts roughly an hour. During the session the contractor will find out the strengths of each tech and will be shown – in black and white – areas of poor performance, by tech, and the resulting cost to the company. Once poor performance is recognized, the coach will provide specific guidance on how to “fix the problem”.
- **Follow Up Report** – The coach will summarize the coaching session, in writing, reviewing specific things the contractor needs to concentrate on during the coming month.

Bottom Line:

A highly trained ProfitMaxx coach can help you maximize the use of your ProfitMaxx software resulting in higher profits – quicker!
